Informal education for youth,  
co-funded by the European Union.

# OUR PROJECT IN PORTUGAL:

The topic:

"Make art great  
again"

*from 5. 2. to 13. 2. 2025  
with E29*

## About the project:

- In February 2025, the coastal town of Peniche, Portugal, became a hub of creativity as young people from Hungary, Lithuania, Portugal, Slovakia, and the Czech Republic gathered for "Make Art Great Again", an Erasmus+ youth exchange. But this wasn't just an art retreat—it was about using creativity to tackle big societal issues like misinformation, populism, and inclusion.
- The exchange was a mix of deep discussions and hands-on artistic exploration. Participants reflected on how art can challenge narratives, encourage critical thinking, and bring communities together.
